### LANGUAGES

- English
- Hindi

### PROFESSIONAL SUMMARY

Skilled frontend developer proficient in HTML, CSS, JavaScript, and Bootstrap, with a foundational understanding of Java, React and SQL. I am dedicated to crafting responsive and visually appealing web applications, eager to contribute my technical proficiency to innovative projects.

### EXPERIENCE

October 2023 - June 2024

#### Associate Software Engineer

/ India, Hyderabad

- Developed and optimized web applications with HTML, CSS, JavaScript, and React, reducing page load times. Implemented responsive design for improved compatibility across desktop and mobile devices.

### EDUCATION

2018 - 2022

#### Bachelor of Technology

JK Institute Of Engineering / India, Bilaspur

### PROJECT

-

#### Todo

India, Hyderabad

Developed a web-based Todo application for managing task lists with time-specific entries, including features for marking tasks complete, deleting completed tasks, and providing timely reminders to enhance organizational efficiency and productivity.

-

#### Grocery app

The Grocery App is a static website simulating an online grocery store with products like fruits and vegetables. I designed key sections, including Home, Category, Product, Contact pages, and a Deals section, allowing users to view detailed information and access current offers. I utilized HTML, CSS, JavaScript, and Bootstrap for development.

-

#### Hotel Livya

Hotel Livya is a hotel management system built with HTML, CSS, and JavaScript for the frontend, servlets for backend processing, Oracle for the database, and JDBC for connectivity. It streamlines operations with features for room reservations, food ordering, and billing, ensuring an efficient experience for both guests and staff.
